Guests

When this box is empty or full of filler like this, what have we learned? That we didn't invite one single guest to our meeting today.
Just sayin'

If you felt topsy-turvy on Wednesday, you were correct. Behind President Glen you see our new "Front" for our meetings. We helped the Museum purchase some much needed upgrades to the sound system and all the gadgetry is concealed except for the wonderful new mike and speakers high in the rafters. We could be a disco!

Tammy Driskill wanted to give a Happy Minute in honor of her brother who is now high and dry in Texas and was able to drive down the street!

Obviously there is still much suffering going on in Houston and now into more gulf states. We need to keep mindful of the needs of others and pray for a quick and secure recovery for all victims of the storm. There are many ways to serve or to donate, please check and see what your church or organization is doing.

Karen Peterlin, CEO
Girl Scouts of North Central Alabama

First, please Save The Date for next Wednesday! There are big plans! Bring a guest (see empty guest box above) and enjoy the fellowship of the Kiwanis Club of Gadsden. Our Jennifer Jackson is doing her part to build up the club membership. She gave a great report on our Satellite Club meeting at Harp & Clover. She said there were five prospects.

Karen Peterlin loves the Girl Scouts. She has her dream job now, CEO of North Central Alabama Girl Scouts. As such, she serves Etowah County. She could not say enough good things about our area. Apparently, as in all things we hear about at our meetings, Etowah County stands head and shoulders above other areas in Girl Scouts. We have the highest per girl in cookie sales. Awesome. Thanks to some special premiums offered by the Girl Scouts, our hard working girls can win wonderful prizes, including free whitewater rafting and camping trips. Our area has also seen the most growth as more and more parents and youth begin to appreciate the breadth of the new Girl Scouts. There are almost 300 girls in our local area.

In one standout example, our newest group, in Hokes Bluff raised enough money to buy backpacks for 88 students. They also raised awareness of scouting in their school. Great job Karen, for raising our awareness in Girl Scouts!!!

ELIMINATE

Kiwanis eliminating maternal/neonatal tetanus
